

# QC Kinetix

(Sandy Springs)

Do you suffer from pain?  
Have you been told surgery  
is your only option? There's a  
better alternative...

## Services

Non-surgical regenerative treatments for pain associated with sports injuries, arthritis and other musculoskeletal conditions

Are you suffering from chronic joint pain? You're not alone. If you live in Sandy Springs, Georgia, you may be eligible for regenerative medical care through QC Kinetix (Sandy Springs). Whereas some joint pain results from such degenerative conditions, other pain may occur due to sports injuries and lifestyle habits. While the traditional treatments for severe joint problems have been surgical, including knee or hip replacements, surgical treatments are invasive and expensive. At QC Kinetix, we offer a relatively new type of therapy based on stimulating the body's healing mechanisms. Lower back pain can occur from a variety of causes - poor posture, straining due to heavy lifting, pregnancy, and sports injuries are just a few common causes. Whether you're dealing with arthritis pain or you've had "bad backs" since that car accident that happened over a decade ago - it's time for relief! Don't suffer in silence any longer. Call us today to schedule a free consultation with one of our Sandy Springs back specialists for back pain treatment.
